

## Worksheet: Past Simple Tense and Technical Vocabulary

### Part 1: Past Simple Tense

Complete the sentences with the correct past simple form of the verbs in parentheses.

Last week, the IT department fixed (fix) the network issue.

The software development team released (release) the new version of the app yesterday.

She installed (install) the operating system on her computer two days ago.

We updated (update) our antivirus software last night.

He wrote (write) the code for the new feature over the weekend.

They tested (test) the application before deploying it.

The company launched (launch) the new product last month.

I learnt (learn) about the new programming language last year.

### Part 2: Vocabulary Matching

Match the technical terms with their correct definitions.

- A. Debugging
- B. Algorithm
- C. Database
- D. Firewall
- E. Cloud Computing
- F. Bandwidth
- G. Encryption
- H. GUI (Graphical User Interface)

A : The process of finding and fixing bugs in software.

B : A set of rules or steps used to solve a problem or perform a task.

C : A structured set of data held in a computer.

D : A security system that controls incoming and outgoing network traffic.

E : The delivery of computing services over the internet.

F: The amount of data that can be transmitted over a network in a given amount of time.

G: The process of converting information or data into a code to prevent unauthorized access.

H: A type of user interface that allows users to interact with electronic devices using graphical icons and visual indicators.

### Part 3: Sentence Creation

Use the following technical terms to create sentences in the past simple tense.

Debug

Encrypt    The file was encrypted and could not be opened

Install    The computer failed and didn't install the new software

Update    The last week updated the software in my cell phone and now it is slower

### Part 4: Reading Comprehension

Read the following paragraph and answer the questions below.

Last month, our company developed a new software application. The development team tested the application thoroughly before the launch. They found several bugs during the testing phase and fixed them. After debugging, they encrypted sensitive data to ensure security. Finally, they installed the application on the client's servers and updated all relevant documentation.

Questions:

When did the company develop the new software application? The last month

What did the development team do after testing the application?

Why did they encrypt the data?

Where did they install the application?

### Part 5: Vocabulary Illustration

Match the technical terms with their definitions and draw a simple illustration to represent each term.

A. Database

Definition: A structured set of data held in a computer.

Draw: \_\_\_\_\_

#### B. Firewall

Definition: A security system that controls incoming and outgoing network traffic.

Draw: \_\_\_\_\_

#### C. Encryption

Definition: The process of converting information or data into a code to prevent unauthorized access.

Draw: \_\_\_\_\_

#### D. Cloud Computing

Definition: The delivery of computing services over the internet.

Draw: \_\_\_\_\_

#### Part 6 Storyboard Creation

Create a storyboard illustrating a past project where you used the following steps. Write a sentence in the past simple tense for each step and draw an illustration to accompany your sentence.

Plan

Sentence: \_\_\_\_\_

Draw: \_\_\_\_\_

Code

Sentence: \_\_\_\_\_

Draw: \_\_\_\_\_

Test

Sentence: \_\_\_\_\_

Draw: \_\_\_\_\_

Launch

Sentence: \_\_\_\_\_

Draw: \_\_\_\_\_
